

Annual Russian Conference “Cardiology on the March 2024” and 64-th Scientific Session of the National Medical Research Center of Cardiology named after ac. E. Chazov

4 – 6 June, 2024, Moscow, Russia

Information letter

Dear Colleagues,

We cordially invite you to participate in the **Annual Russian Conference “Cardiology on the March 2024” and 64-th Scientific Session of the National Medical Research Center of Cardiology named after ac. E. Chazov**, which will be held on June 4 – 6, 2024 in Moscow.

In these three flashing days the scientific programme will cover extensive areas of cardiology, including acute cardiovascular care, arrhythmias, management of chronic cardiovascular diseases and comorbid conditions, cardiovascular prevention and rehabilitation, advances in diagnostic modalities and imaging, pharmacological treatment, cardiovascular interventions and surgery. We plan to discuss implementation of recent discoveries and clinical guidelines in routine practice. Artificial intelligence is a huge trend in contemporary medicine and it cannot be ignored. Basic science, cardiovascular biology and genetics are predominant sources of our knowledge and definitely will not be missed as well.

Sessions will be held in person with live online broadcasting. Official Conference language is Russian. Simultaneous translation to English will be provided at the international symposia.

If you would like to present your late breaking science, please send your suggestions to the Organizing Committee Conference@Cardio.ru before February 14, 2024.

For more information about the Conference and the National Medical Research Center of Cardiology named after ac. E. Chazov, please refer to <http://www.cardioweb.ru>.

Annual Russian Conference “Cardiology on the March 2024” and 64-th Scientific Session of the National Medical Research Center of Cardiology named after ac. E. Chazov is the largest cardiological congress to be held in Moscow in 2024.

We will do our best to make the programme interesting for a broad number of listeners and participants and we are sure that our Conference will be useful in enriching knowledge, promoting clinical experience and extending international contacts.

We kindly ask you to forward our Information letter to your colleagues, friends and other professional contacts. The more specialists learn about our Conference, the better our event will be.

We hope to see you in Moscow.

Best regards,

Organizing Committee
